## Global patterns

Impact	Pattern
● Medium	01. Navigation not interpretable for assistive technologies
● Medium	02. Repetitive content can not be bypassed
● Medium	03. CKEditor form labels not interpretable for assistive technologies
● Minor	04. Language region attribute incorrect for zh-CN reCAPTCHA
● Minor	05. Missing or incorrect descriptive attributes for some meaningful media
● Minor	06. Missing or incorrect attributes or content for some interactive elements
● Minor	07. Too low contrast on some elements

---

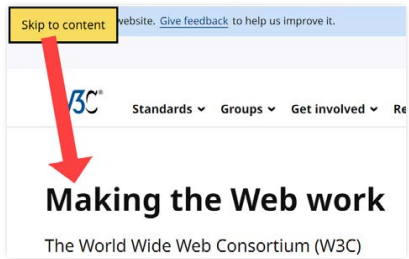

### 01. Navigation not interpretable for assistive technologies

● Medium impact

Info	Screenshot	W3
<p>The navigation has an ARIA-attribute: "aria-hidden = true". Assistive technologies therefore skip interpretation and bypass interaction. This results that the navigation is only accessible for users with visual and motoric abilities.</p>		<p>W3</p> <p><a href="#">SC 4.1.2</a></p>

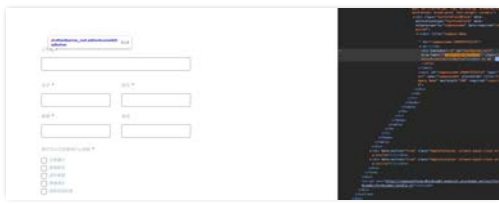

02. Repetitive content can not be bypassed

● Medium impact

Info	Screenshot	W3
<p>A page must provide a keyboard-accessible method to bypass repetitive content. Right now, there is no bypass method such as a "Skip to main content" button to skip repeating content, such as 30 tabs through the navigation, to get to the main content of the page.</p>		<p>W3</p> <p><a href="#">SC 2.4.1</a></p>

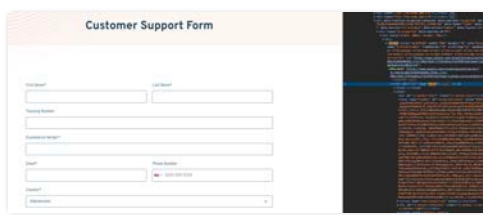

03. CKEditor form labels not interpretable for assistive technologies

● Medium impact

Info	Screenshot	W3
<p>Form labels on business enquiry, contact us page across different languages (EU-FR, EU-PL, ZH-CN, ZH-HK) contain incorrect descriptive attributes - such as "[Navigate to toolbar]". Users who rely on assistive technologies to describe the content, will think that by engaging to this form field that they will navigate to a toolbar - instead of editing their name or email field for example.</p>		<p>W3</p> <p><a href="#">SC 4.1.2</a></p>

04. Language region attribute incorrect for zh-CN reCAPTCHA

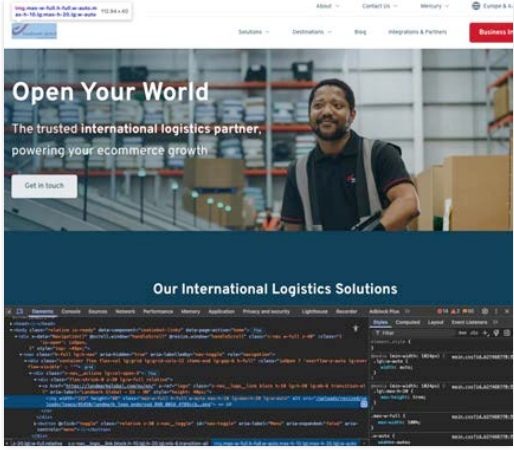

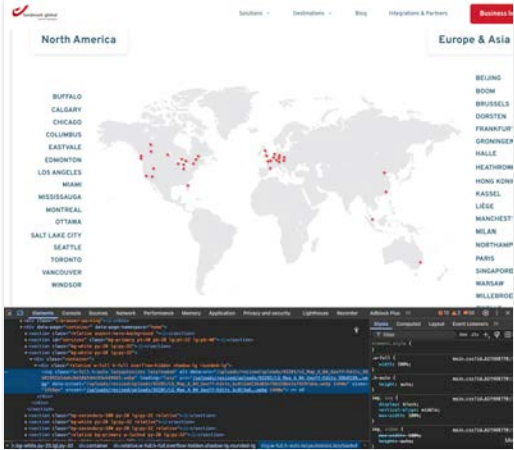

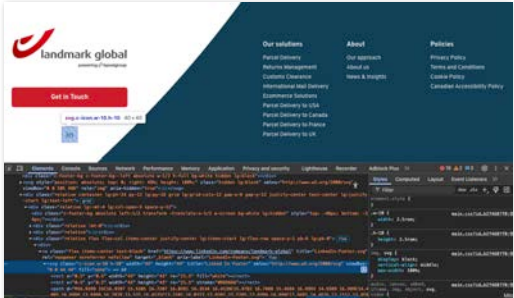

● Minor impact

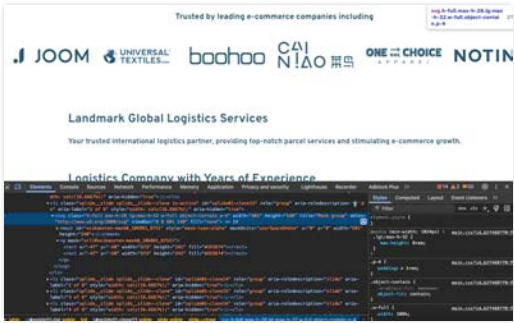

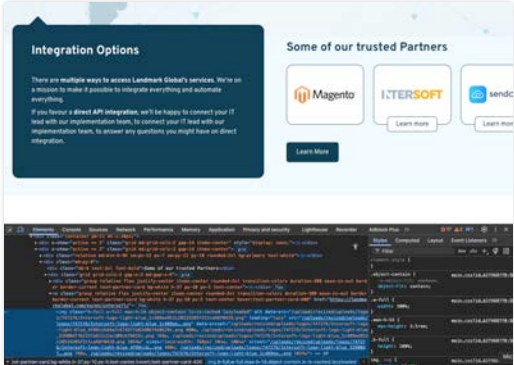

Info	Screenshot	W3
<p>The zh-CN version of the reCAPTCHA has an incorrect language attribute: "zh_cn", instead of the correct one: "zh-cn". If the language code is invalid (zh_cn), the screen reader may ignore it entirely, fall back to the default language, usually English, mispronounce or render Chinese content unintelligibly. Chinese users with visual impairments or reading difficulties may not</p>		<p>W3</p> <p><a href="#">SC 3.1.1</a></p>

<p><b>Info</b></p>	<p><b>Screenshot</b></p>	<p><b>W3</b></p>
<p>understand the content or know how to complete the reCAPTCHA or form.</p>		

05. Missing or incorrect descriptive attributes for some meaningful media

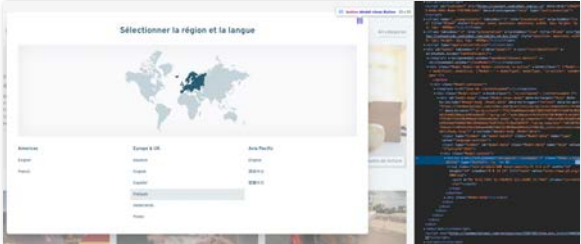

● Minor impact

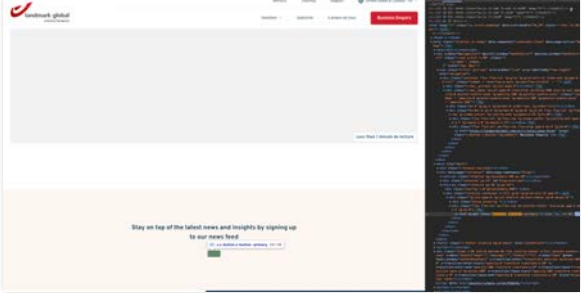

Info	Screenshot	W3
<p>Meaningful media (images, logos, videos from YouTube) on the website at times miss their descriptive attributes, such as alt texts. This makes it impossible for assistive technologies to tell which content is shown for meaningful content: brand logo in the header and footer, correct LinkedIn button title, map with operating locations, partner logos, descriptive attributes for YouTube iframe "Get to know" video on the "About us" page, etc.</p>		<p><a href="#">SC 1.1.1</a></p>
		
		
		

Info	Screenshot	W3
		
		

06. Missing or incorrect attributes for some interactive elements

● Minor impact

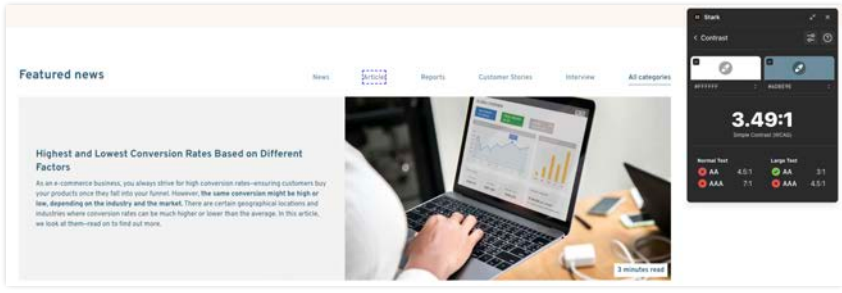

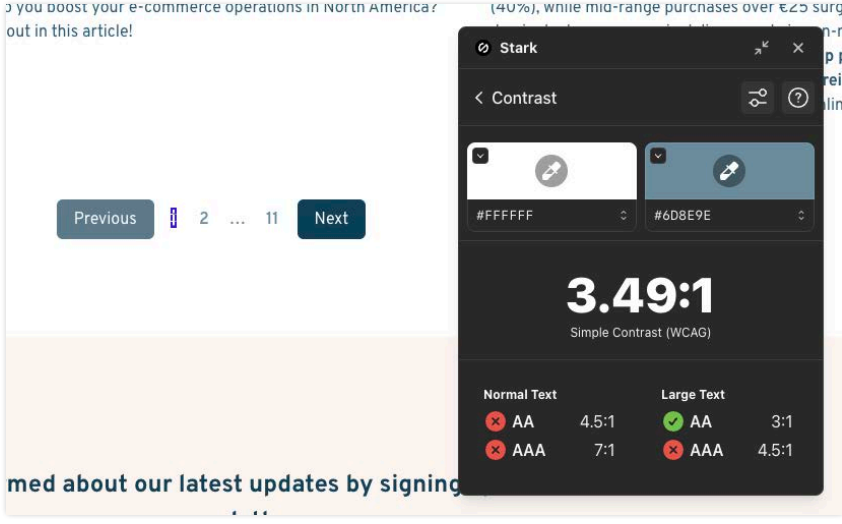

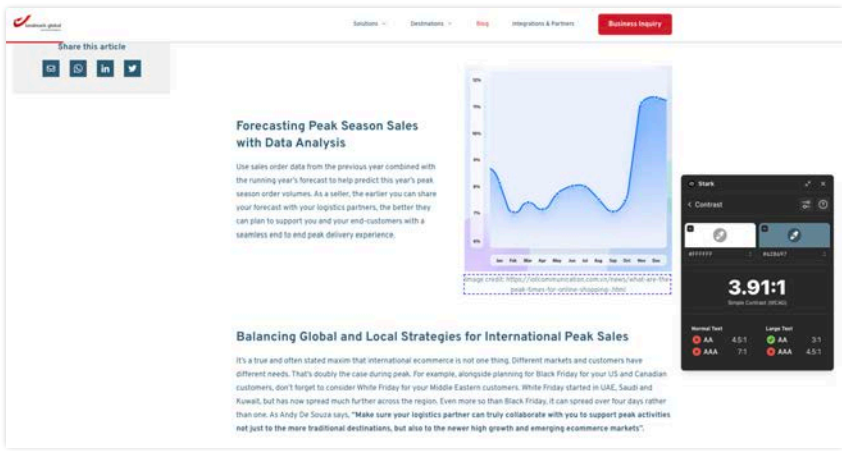

Info	Screenshot	W3
<p>Interactive elements, such as buttons and links at times miss their correct attributes or content. This makes it impossible for assistive technologies what is shown on the screen, making it only accessible for users with visual and motoric abilities. Examples: close button on the language picker, clickable logos, empty links or buttons.</p>		<p><a href="#">SC 4.1.2</a></p>

07. Too low contrast on some elements

● Minor impact

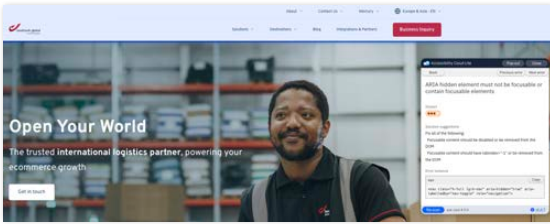

Info	Screenshot	W3
<p>Inactive tabs on the news overview page have a too low contrast: 3.49:1. The minimum is 4.5:1.</p>		<p>SC <a href="#">1.4.3</a></p>
<p>Other pages in the pager have a too low contrast: 3.49:1. The minimum is 4.5:1.</p>		
<p>The heading above the destinations map has a too low contrast: 4.2:1. The minimum is 4.5:1.</p>		
<p>The caption text has a too low contrast: 3.91:1. The minimum is 4.5:1.</p>
